- Maintains an accurate inventory of electronic devices throughout the District.
- Maintains and deploys sets of computers or tablets for classroom use individually, in-charging carts/cabinets, or in a static lab configuration.
- Manages assigned tickets, projects, and support requests in an efficient and timely manner to meet department target objectives on response and resolution times.
- Participates in meetings (e.g., school site, departmental) for the purpose of providing and/or gathering information.
- Prepares a variety of materials (e.g., training documents, video tutorials, procedures for new and existing

software) for communicating information to other parties.

- Prepares basic documentation for various technical support issues or instructional use. Develop and maintain documentation supporting assigned and related areas of responsibility.
- Responsible for reviewing the District help desk inquiries (e.g., students, teachers, District personnel) and project management systems to facilitate timely completion of all requests and assigned tasks.
- Runs queries against a variety of data (e.g., student data, personnel data) for providing requested information and/or evaluating the accuracy of the data.
- Tests application software for ensuring that product matches defined requirements and expected functionality.
- Trains teachers, administrators, students, etc. for ensuring their ability to use new and/or existing electronic equipment, operating systems, and application software.
- Troubleshoots cloud-based software or platforms (e.g., productivity suites, digital curriculum, data platforms) for the purpose of identifying and resolving operational issues and restoring services.
- Troubleshoots malfunctions of hardware and software for the purpose of identifying and resolving operational issues and restoring services.
- Updates databases (e.g., student information) for ensuring data is correct and current.
- Works and collaborates across teams to develop, promote, and support technology solutions for users.
- Works with all customer service support systems, including call and ticketing systems, to provide professional technical support and customer service for users with account, connectivity, hardware, software, or other technically related user issues.
- Performs other related duties as assigned for ensuring the efficient and effective functioning of the work unit and the District, including various mandatory District trainings.
