SCENIC DESIGN COACH

DEPARTMENT/SITE: Visual and Performing Arts

SALARY SCHEDULE: Supplemental-Help

SALARY RANGE: \$24.00 Per Hour

WORK YEAR: Non-Contracted

REPORTS TO: Performing Arts Teacher

FLSA: Non-Exempt

PURPOSE STATEMENT:

Under the general direction of the Performing Arts Teacher, the Scenic Design Coach supports performing arts productions and curriculum within the performance facility. The position assists the performing arts teacher and students with the technical aspects of the staging of school, children's touring, CTE/CTSO events and community performances; provides technical and artistic guidance and oversight to student stage crews, and serves as on-site technical support to student productions; ensures proper sequencing of staging and sets; facilitates productions with the director. The incumbents in this classification provide the school community with support in providing a quality performing arts program which directly supports student learning and achievement.

ESSENTIAL FUNCTIONS, DUTIES, AND TASKS:

The following alphabetical list of functions, duties, and tasks is typical for this classification. Incumbents may not perform all of the listed duties and/or may be required to perform other closely related or department-specific functions, duties, and tasks from those set forth below to address business needs and changing business practices.

- Coordinates, oversees, integrates and may participate in the operation of sound, lighting and other production equipment during productions; recommends equipment maintenance and purchases; maintains records of and takes inventory of theater equipment.
- Assists the Performing Arts Teacher to lead students through the design process, including: script analysis, research, concept, technical drawings and physical implementation.
- Oversees and coordinates the troubleshooting, repair, and maintenance of staging equipment and facilities; maintains a preventive maintenance program and contracts for repairs as necessary.
- Oversees and provides on-site technical staging expertise at venue events, providing professional guidance and assistance to the performing arts students and personnel with regard to staging concepts, processes, and techniques.
- Participates in the development of operating goals and objectives for the assigned venue; recommends, implements, and administers methods and procedures to enhance operations.
- Provides technical oversight, guidance, and training to student crew members in basic performance venue practices, techniques, and work standards.
- Trains and oversees staff and student crew personnel in technical safety procedures regarding facilities, equipment, and personnel.
- Works with teachers and producers to coordinate and sequence activities and arrange details for rehearsals and performances.
- Works with Teacher / Director, Production Manager, and other Creative Teams to meet production timelines and budgets.
- Performs other related duties as assigned for ensuring the efficient and effective functioning of the work unit and the District, including various mandatory District trainings.

KNOWLEDGE, SKILLS, AND ABILITIES

(At time of application)

Knowledge of:

- Performing Arts and concert production with concentration in technical aspects Computerized and conventional professional staging, materials, equipment, and facilities
- Methods and problems of stage and set design and construction
- Construction/engineering skills relevant to understanding load requirements when building sets
- Theatrical lighting and concert sound techniques
- Basic math skills to make detailed measurements and compute distance, totals and portions

Skills and Abilities to:

- Ensure the production of multiple programs throughout the school year
- Apply independent judgment and discretion in coordination with limited facilities
- Creatively design sets and ancillary systems according to individual production and curricula specifications
- Work cooperatively with teachers, students, and community to support productions in stressful or high-pressure situations created by strict deadlines
- Teach, train, and instruct others
- Ensure that safety is a priority focus in construction of sets and production of programs
- Informally leader others, building harmony among team members, and convey technical concepts
- Organize a variety of activities

RESPONSIBILITY:

Responsibilities include: working under direct supervision using industry standardized procedures; leading, guiding, and/or coordinating others; and operating within a defined budget. Utilization of some resources from other work units may be required to perform the job's functions. There is a continual opportunity to have some impact on the organization's services.

JOB QUALIFICATIONS / REQUIREMENTS:

(At time of application and in addition to the Knowledge, Skills, and Abilities listed above.)
