Bid Section No.2 Pershing-9:15 am

Bid Section No.3 Howard -9:30am

Bid Section No.4 Madison-9:45 am

Questions/Clarifications:

Clarifications:

"Prior to any crack sealing remove any organic or loose material from the base of the depression buy use of an asphalt crack heat lance. If the depression is grease or oil-stained, wash the surface with an asphalt cleaner to remove the oil and grease. For cracks 3/4" or wider add a 1-inch layer of cold-mix asphalt patch to the bottom of the low area. Choose a cold-mix patching material that has added binding agents to promote adhesion to the existing asphalt (submit cold-mix specs for approval). Tamp cold-mix asphalt patching material down until it is compacted tightly to the base of the depression. Add 1-inch layers of cold-mix asphalt patching material, tamping each layer until you build the final patch up the surface of the existing driveway."

Monroe Elementary School:

No Curbs are to be painted

Stripe "as is"

Seal around Wheel Stops
