Public Input

Imelda Hernandez mentioned that homework is worked on every night at home. Mrs. Riche reminded parents Homework should be a practice of what has been done in class and not something new. It was brought up that during After School Program that homework is not worked on until 4:30. More than half the program rides the bus home at that time, and all of those students are missing out on extra help for their homework. Homework should be worked on first in the program due to the bus schedule.
